

Crochet Extra

98th Edition - April 2014

Welcome to the April newsletter. A sincere thank you to the many customers and friends who have sent messages, cards and emails and the continuous stream of phone calls that followed the passing of our beautiful granddaughter Jess. It is heart warming to know that so many people are with us through these tragic circumstances and even more overwhelming to hear so many similar stories from these same people.

On the good news front, DMC has some new colours in Petra Perle #5 and deleted a few of the old favourites. In the near future we will have a look at the whole range again and put together colours that complement our MTPerle #5, to cover the whole spectrum. There are some new arrivals of books and a few more on the way. Most of the out of stock tatting books have come in and a few extra titles have been added to our vast range.

Crochet Australia is very busy filling orders, especially with lots of thread going out daily. This tells me that either the big shops are stocking less of what our customers need, our prices are very competitive or a combination of both.

Life here is still interesting, as each morning I wake up and wonder what surprises await me as I enter the office. There are always the daily challenges to keep me occupied, lots of phone calls, and the pile of orders still accumulate each day, so we must be doing it right.

Some of our customers have met Sammy our delightful border collie. She too has a passion for quality thread so is now banned from the office building, much to her disgust. She is now big enough to help with the trips to the post office, so that is the trade off for her as we stop off for a long walk on the way home. It is a win-win all round and a lovely way to finish the day. Until next time, keep those fingers busy.

Vicki

Good things come in Sets.

For the customer, items that come as a set usually means a better price, as these are all pre-packed and ready to go. Our most popular sets would have to be our quality cotton handkerchiefs.

We have them in white and coloured, spoked (hemstitched) with sewn, straight or scalloped edge, some with motifs and others just plain. For some, the floral set of 8 and novelty kiddies set of 12 face cloths are a favourite all year round too.

Next are the books that include a DVD / CD and include Tunisian, bead crochet, garment crochet, crochet workshop, afghans, toys and tatting. Also in books we have packs of symbol crochet magazines - Crochet Monthly (4 packs), Crochet Magic (3 packs) and Decorative Crochet (3 packs).

Sets of knitting needles such as Liteflex, Boye and Denise will always make sure that you have the right needles at hand every time.

Customers love the interchangeable Boye and Denise sets as these circulars come with different length cords that can be lengthened as your knitting grows - great for circular shawls! The Denise knitting and crochet sets are interchangeable with each other as well. Check out this month's special for these.

The Clover flower loom set with different shaped looms makes great motifs and not a crochet hook in sight. The Knook sets also have a range of books to complement this latest craze. For the needle tatters we have 2 different sets of needles, or perhaps the set of the book and needles is just right for you.

Last but not least we have a huge range of crochet hook sets - Lotus, Clover Arthritic, Klass & Gessmann gold tip, Boye and Denise. In other hooks we have Tricot in Aluminium and Bamboo, straight and cable, and with reversible Tunisian crochet we have made (Crohooks) sets to go.

This month we have created some more sets as great specials just for you. As you can see these all make super gifts for Mum or a delightful treat for yourself.

Look at the Sets of goodies we found!!
